APVMA APPROVAL NO: 63057/5gC/0608

NET CONTENTS: 5g

Contains one 5 g applicator which it is illegal to sell separately. Do not destroy blister pack (or carton) while product still remains.

A ready-to-use bait gel for reliable and long lasting control of cockroaches. Bait gel stays moist and attractive to cockroaches for up to 3 months.

HOW TO USE

Remove stopper from end of applicator and touch nozzle to surface; lightly depress plunger until a spot about the size of a small pea (eg. a 5 mm ball) is delivered. Use the table below to assess the number of spots required.

SITUATION	PESTS CONTROLLED	RATE	WHERE TO APPLY
Houses, sheds, garages and other domestic buildings or structures.	Cockroaches	1 – 3 spots /m ² depending on size of infestation and type of cockroaches present. Use the higher rate for large infestations or infestations of large cockroaches.	Apply bait gel in out of the way places where cockroaches occur (eg. under or near appliances, around garbage bins, underneath kitchen sink units etc). DO NOT place gel on surfaces which are regularly washed. Monitor bait gel spots and replenish as required or at three-monthly intervals as long as cockroaches remain. If bait gel is completely consumed then increase number of spots.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED

GENERAL

In some situations the extent of a cockroach infestation may require the expertise and resources of a Professional Pest Manager. It is recommended that such expert advice is sought if the infestation is not brought under control with the use of this product as directed. For Professional pest control service call 1300 RENTOKIL to book a service by our expert technicians.

CAUTION

DO NOT apply the bait gel directly on humans, pets, exposed food, food preparation areas or food utensils. DO NOT place gel on surfaces which are regularly washed. DO NOT allow the containers or product to get into drains, sewers, streams or ponds.

STORAGE AND DISPOSAL

Do not destroy outer packaging while product still remains. Replace cap on applicator and store with original packaging in a cool, dry place out of reach of children. Do not store in direct sunlight. Dispose of empty applicator by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS

Will irritate eyes. Avoid contact with eyes. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 1126.
